# INDEX.

Abdominal section, successful case of, for intussusception, with remarks on this and other methods of treatment, 737, 781
Aberdeen University, pass-list of, 249; medical curricula at, 375
Abiogenesis, 47
Adams, Mr. W., Club-foot, its Causes, Pathology, and Treatment (review), 116; growth and supposed wearing out of cicatrices, 773
Addenbrooke's Hospital, 419
Adder, bite of an, 101
Adderley, Sir C., the Public Health Bill of, 58
Administrative areas, 200
Adulteration Act, the, 80, 91, 216, 360, 567, 749, 782; the Permissive Bill and, 779
Advertising compliment, an, 253
African fevers, 640, 700, 827
——— service, the, 678
Agassiz, M., Natural History School of, 241; death of, 899; obituary notice of, 922
Akerman, Mr. W., medical benefit clubs, 68
Albion Life Office, the, 897
Albuminuria, temporary, the result of cold bathing, 812
Alcohol, action of, on body temperature, 350; and alcohol's, 639
Aldridge, Dr. J. H., typhoid fever in Marylebone, 249
Alexander, Mr. H., St. John's Hospital, 288
———, prize, the, 167
Algiers, climate of, 509
Allan, Mr. J. W., history of a scrofulous family, 262
Alopecia, treatment of, 101
Alpine Guides (review), 233
Amaurosis, case of assumed, 42; treatment of, by hypodermic medication, 688
America; cholera in, 242
American Dental Association, Transactions of the (review), 832
——— war, the medical and surgical history of the, 481
Amputation, natural, or spontaneous fracture, a contribution to the surgery of, 180, 223, 259, 295
Anus-at's operation, case of, 554
Anykonsceptin, 16
Anæsthesia, the inventor of, 276
Anæsthetic travelling, 313, 355
ANALYTICAL RECORDS.—New drugs &c. introduced by Messrs. Ferris and Co., 631—Kirby's phosphorus preparations, ib.—Extract of meat, 632—Dr. Girard's protoxalate of iron, ib.—Eau minérale naturelle, sulfureuse, alcaline, lodurée, et bromurée, ib.—Goldsworthy's wheaten biscuits, ib.
Anatomy Act, the, 546
Anderson, Dr. M'C., cases illustrative of pain as a symptom of disease, 73
Anderton, Mr. C., third attack of measles, 139
Aneurism, on the surgical treatment of, in its various forms, 105, 142, 185, 443, 533; the successful treatment of, by position and restricted diet, 878, 898, 921; femoral, two cases of, 7; popliteal, gangrene after ligature of the femoral, separation of four toes, recovery, 43; popliteal, cases of, 112; intra-thoracic, treatment of, by electrolysis, 264; of posterior tibial artery cured by pressure, 301; traumatic, of the thrust, ligature of the common carotid, 517; of the descending aorta treated by galvano-puncture, 550; diffused, of the right popliteal artery, amputation, death, 594; axillary, compression, cure, 700; of the posterior tibial artery, compression, ligature, gangrene, amputation, recovery, 809; of the external iliac artery cured by pressure with Lister's abdominal tourniquet, 879
Anglo-French war, an, 714
Annus medicus 1873, 908
Anosmia following a blow, 659
Anstie, Dr. F. E., remarkable case of death from meningeal congestion without inflammation, 740
Antineuralgic snuff, 5
Antiseptic surgery, 432, 470; an Inquiry into the Theory and Practice of (review), 193
Anti-vaccinationists, 851
Anus, arsenical ulcerations of the, 49; abnormal, concerning the closure of, 9
Aortic insufficiency, on, 291
Aphasia, the sequence of typhoid fever, 111; complete, followed by cure, 82
Apothecaries' Hall, 94; pass-lists of, 30, 65, 100, 136, 173, 216, 250, 286, 320, 359, 438, 508, 543, 578, 618, 651, 687, 723, 758, 794, 829, 863, 924; regulations of, 394—of Ireland, regulations of, 395
Apoplexy and drunkenness, 351
Arachis hypogea, oil of, 363
Ardwick and Ancoats Hospital, 751
Armstrong, Mr. L., introductory lecture at the Durham College of Medicine, 528
Army, health of the, 94; recruiting in the, 201; hospital stoppages in the, 568, 678, 685
——— hospital corps, 643
——— medical department, 17, 48, 85, 93, 102, 138, 278, 318, 320, 396, 433, 630; reduction of the, 430
——— warrant, the, 163, 566, 671, 682, 710, 791
Arnold and Son's waterproof padding for splints, &c., 487
Arsenic, sugar and magnesia an antidote to, 157; in the household, 715; administration of, to phthisical subjects, 777
Arterial pressure, the medical value of, 413
Ashantee war, the, 268, 307, 344, 350, 422, 491, 458, 497, 500, 533, 564, 570, 634, 707, 711, 745, 748, 750, 756, 791, 820, 884, 916; medical aspects of the, 86; medical volunteers for, 506
As it should be, 787
Asphyxiated animals, absorption of oxygen by the blood of, 341
Aspirating puncture in dropsy of the knee, 562
Aspirator, the, 318
Assistant, liability for wrongful treatment by an, 93
Assurance v. nervousness, 253
Asthma, the pathology of, 703; spasmodic, on, 325, 513
Astley, Dr. E. F., presentation to, 826
Athletic exercises, use and abuse of, 770
Auditory function, deranged, 897
Auricular systolic murmur, 811
Australia, the climate of, 474
Autumn manœuvres, the, 285, 317, 319, 355, 434

Baber, Mr. E. C., six cases of non-impacted Colles' fracture, with remarks, 111
Bacteria in blood, 14
Balfour, Mr. W. G., tumours attached to the dura mater pressing on the superficial brain-substance, paralysis, 669, 837
Banking company, a medical, 98
Barker, Dr. W., obituary notice of, 438
Barnes, Mr. E. C., medical guardians and workhouse medical officers, 653
Barras, Dr. J., third attack of measles, 280
Barrett, Mr. A. E., deferred fracture of the clavicle, 433
Barwell, Mr. R., infantile paralysis and its resulting deformities, 799
Bassereau's Origine de la Syphilis (review), 560
Baths, public, 175; for East London, 882; foreign, notes on visits to, 294, 412; floating, 538
Batt, Mr. C. D., lightning-stroke, 363
Bayonet-wounds, two cases of, 82
Beale, Dr. L., Dr. Pettigrew on vitality, 756
Beau, Dr. L., du Traitement des Plaies d'un mode nouveau de pansement antiseptique par le Coal-tar et le Charbon (review), 193
Beck, Dr. T. S., fatty degeneration of the contractile tissue of the uterus, nature of the cauliflower excrescence of the os uteri, 910
———, Mr. M., on a case of aneurism of the descending aorta treated by galvano-puncture, 550
Beer, adulteration of, 714
Beet-root sugar, 791
Belgian challenge cup, 431
Bell, Mr. J., Surgical Cases in relation to Temperature (review), 338
Bellamy, Mr. E., introductory address at Charing-cross Hospital, 483
Benefit clubs, medical, 68
Bennet, Dr. J. H., the cholera cases at Vienna, 282
Bennett, Mr. E., bite of an adder, 102
Bequests, donations, &c., 30, 66, 100, 230, 287, 438, 473, 543, 578, 586, 623, 687
Berkart, Dr. I. B., "rest" in the treatment of consumption of the lungs, 552; pathology of asthma, 703
Bernard, Prof. C., on calorification in asphyxia, 505
Bile-duct, obstruction of the, 629
Biliary secretion, physiology of the, 56
Birds, intestinal obstruction in, 775
Birkbeck's (Dr.) foundation, 852
BIRMINGHAM.—Death-rate of the town, 285—Well-water, ib.—Sewage farm at Saltley, ib.—Birmingham Medical Benevolent Society, 286—Birmingham Musical Festival, 336—Death of Dr. Evans, ib.—A new park, 543—Abuse of hospital charity, ib.—Enchondroma of the tibia, ib.—Locomotor ataxy, ib.—Hospital clinical work, 648, 828—The salt baths at Droitwich, 649—Salary of the gaol surgeon, 720—Hospital Sunday, ib.—The Orthopædic Hospital, 721—The new out-patient department of Queen's Hospital, ib.—Midland Medical Society, 721, 828—Hospital reform, 828—Dr. Richardson on the pioneers of modern science, ib.
Black, Dr. D. C., preventive treatment of uric-acid calculi, 432; on the Functional Diseases of the Renal, Urinary, and Reproductive Organs (review), 666
———, Mr. W. J., ophthalmic surgery in paupers' schools, 935
Blackley, Mr. C. H., on Hay Fever (review), 231; the pollen theory of hay fever, 441
Bladder, rupture of the, without external violence, 446; female, self-retaining catheter for the, 332; of a female, a wax candle in the, 289
Blanc, Dr. H., animal vaccination, 110; on the internal use of chloralum in cholera, 226; summary of papers read at the medical section of the French Association for the Advancement of Science, 420, 455

Leared, Dr. A., Tangier as a winter resort, 401; Mogador as a winter resort for invalids, 588
Leavesden Asylum, the, 247
Leckie, Mr. J. L., foreign bodies swallowed by children, 761

LECTURES, ETC.

ANDERSON, Dr. M'C.:
Lectures on Clinical Medicine. Delivered in the Royal Infirmary of Glasgow.
Lecture II.—Cases illustrative of Pain as a Symptom of Disease, 73

BARWELL, Mr. R.:
Clinical Lectures on Infantile Paralysis and its resulting Deformities.
Lecture VII., 799

CORRIGAN, Sir D.:
Address delivered on the occasion of the Distribution of Prizes in St. Mary's Hospital Medical School, on July 2nd, 1873, 409

FOX, Dr. T.:
Clinical Lecture on Tinea Sycosis, 141

HINTON, Mr. J.:
Introductory Lecture delivered at Guy's Hospital, October 1st, 1873, 477

HOLMES, Mr. T.:
Lectures on the Surgical Treatment of Aneurism in its various Forms. Delivered at the Royal College of Surgeons in June, 1873.
Lecture III., 105, 142
Lecture IV., 255
Lecture V., 443
Lecture VI., 583

HUTCHINSON, Mr. J.:
Clinical Lecture on a Case of Extra-uterine Fœtation simulating Ovarian Dropsy. Delivered on the 3rd of June, 1873, 71

LANE, Mr. S. A.:
Lecture (Abstract of a) on Tertiary Syphilis and Syphilitic Cachexia. Delivered at St. Mary's Hospital, July 23rd, 1873, 118

LATHAM, Dr. P. W.:
Clinical Lecture on a Suppurating Hydatid Cyst of the Liver communicating with the Left Lung. Delivered at Addenbrooke's Hospital, Cambridge, 241

LEE, Dr. J. R.:
Lectures (Abstract of Two) on the Anatomy and Physiology of the Ovum in the Early Months of Pregnancy. Delivered at St. George's Hospital.
Lecture I., 549
Lecture II., 621

MAPOTHER, Dr. E. D.:
Introductory Address (Abstract of the) at the Royal College of Surgeons, Ireland, 655

MEADOWS, Dr. A.:
Lectures on Fibroid Tumours of the Uterus. Delivered at the Hospital for Women, Soho-square.
Lecture II., 1, 35

PAGET, Sir J.:
Clinical Lectures on the Nervous Mimicry of Organic Diseases. Delivered at St. Bartholomew's Hospital.
Lecture I., 511
Lecture II., 547
Lecture III., 619
Lecture IV., 727
Lecture V., 763
Lecture VI., 853

PARKES, Dr. E. A.:
Address in Medicine, delivered before the Annual Meeting of the British Medical Association, at London, in August, 1873, 177

PETTIGREW, Dr. J. B.:
A Lecture on the Relations of Plants and Animals to Inorganic Matter, and on the Interaction of the Vital and Physical Forces. Introductory to a Course of Physiology, 691

REYNOLDS, Dr. J. R.:
Lecture on the Classification of Diseases of the Nervous System, 405

SQUAREY, Dr. E.:
Lectures (Abstract of Two) on Flexions of the Uterus as a Cause of Dysmenorrhœa. Delivered at the Hospital for Women, Soho-square, 656, 729

THOMPSON, Sir H.:
An Address on the Future of Operative Surgery for Stone in the Bladder. Delivered before the Midland Medical Society at Birmingham, Nov. 8th, 1873, 867

TUKE, Dr. T. H.:
Address delivered at the Annual Meeting of the Medico-Psychological Association, held at the Royal College of Physicians, August 6th, 1873, 446, 481

WATERS, Dr. A. T. H.:
Clinical Lecture on Aortic Insufficiency. Delivered at the Liverpool Royal Infirmary, 291

WILLIAMS, Dr. C. T.:
Clinical Lectures on Spasmodic Asthma. Delivered at the Hospital for Consumption and Diseases of the Chest, Brompton.
Lecture I., 325
Lecture II., 513

WOOD, Mr. J.:
Address in Surgery, delivered before the Annual Meeting of the British Medical Association, at London, in August, 1873, 182

Lee, Dr. R. J., on the anatomy and physiology of the ovum in the early months of pregnancy, 549, 621
Leeds, small-pox in, 685
Lees, Dr. L. H., notes on the Indian career of, 135
Legg, Dr. J. W., a case of anæmia following a blow, 659
Legs, compound comminuted fracture of both, fracture of the skull, amputation of the right thigh and left leg, recovery, 264
Leicester, the epidemic of small-pox at, 203; the coronership of, 280, 314; the railway accident at, 621
Leishman's Midwifery (review), 265
Le Maout and Decaisne's Botany (review), 303
Leprosy, 26; mission, a new, 163; the Beauperthuy treatment of, 339
Leslie's court-plaster, 632
Liebig, 32
Life assurance, fees in, 782; and sick allowance, 27; offices, the medical profession and, 68
Life-boats, moral, 137, 321
Light, physiological action of, 240, 275
Light Science for Leisure Hours (review), 631
Lightning-stroke, 383
Lincoln County Hospital, 611
Lingual and hypoglossal nerves, vaso-motor action of the, 312
Lipomata, means of diagnosing, 157
Lister, Mr. J., on antiseptic surgery, 353; and the germ theory, 529, 600
Lithotomy, unusually quick recovery, without suppuration of the wound, 265; rapid recovery after, 318; extraordinary, 677, 780
Liveing, Dr. R., on Megrim (review), 532
Liver, abscess of the, recovery after the abstraction of 106 oz. of pus by Dieulafoy's aspirator, 39; suppurating hydatid cyst of the, communicating with the lung, 321; hydatid cyst of the, 704; abscess of the, 843
Liver-cells, the albuminous substances of the, 568
LIVERPOOL.—The opening session, 685—The new buildings of the school of medicine, ib.
Liverpool, the coroner for, 130; drunkenness in, 139; health of, 488; port sanitary work at, 639; Hospital Sunday in, 680
Livre des Machabées, le, 830
Local Government Board, Report of the, 31, 95
Locomotor ataxy, rest in, 543
London and General Water-purifying Company, 30
—— Hospital, 918
——, port of, sanitary authority of, 280
——, University of, and the conjoint scheme, 90, 166, 716; pass-list of, 286, 723, 862; medical curricula at, 371
——, water-supply of, 91
Longevity, human, 347
Longmore, Mr. T., the Medical and Surgical History of the American War, 431
Lonsdale, Dr. H., the Worthies of Cumberland (review), 667
Love, Mr. G., obituary notice of, 794
Lowne's Philosophy of Evolution (review), 908
Lubbock's Origin and Metamorphosis of Insects (review), 844
Lucas, Mr. H., cancer of the rectum, with complete obstruction, colotomy, 139
"Lumbago" treated by the continuous galvanic current, and the rhythmical exercise of the affected muscles, 809
Lunatics, transfer of, from one asylum to another, 67; removal of, 798
——, pauper, the sanity of, 242; in workhouses, 822, 893
Lung, researches on the histology of the, and on pneumonia, 490
Lupus, case of, treated without caustic, 555
Lyons, Dr. R. T., dengue fever, 663

Maccall, Dr. T. S., treatment of incontinence of urine, 219
M'Crea, Dr. J., priority in the treatment of phthisis by rest, 617
MacEvers, Dr. J. F., "an enlightened pleantry," 725
Macewen, Dr. W., case of rupture of the bladder without external violence, 448
Machinery, killed and wounded by, 888, 926
Mackenna, Dr. J. W., diarrhœa in children, 323
Mackenzie, Col. Kenneth, 312
——, Mr. G. H., the subcutaneous injection of morphia, 696
McKeown, Dr. W. A., on partial staphyloma of the cornea and iris, 329
Maclaren, Dr. R. P., a case in which a live fish was swallowed and impacted in the œsophagus for thirty-four hours, emphysema, recovery, 103
Maclean, Dr. W. C., abscess of the liver, recovery after abstraction of 106 oz. of pus by aspiration, 39
M'Nab, Dr. R., case of high temperature in rheumatic fever, 341
M'Nally, Dr. G. W., an iron-wire folding fracture box, 680
Macpherson, Dr. J., notes on visits to foreign baths, 294, 412
M'Ternan, Deputy Inspector-General, obituary notice of, 923
Madeira, 68; for the sick and wounded, 853
Madras, lunacy in, 252
Magnesia, dressing with, 49, 102, 137
Malady, a new, 59
Malaria, 848
Malassez, M. L., de la Numération des Globules Rouges du Sang (review), 776
Male, Mr. H. D., catgut sutures, 28
Manby, Mr. F., vaccination awards, 169
MANCHESTER.—The provident system, 506—Election to hospital medical appointments, ib.—Owens College, ib.—The new school buildings, ib.
Manchester, medical relief at, 24; the provident system at, 89, 122, 132, 169; Royal Infirmary, 473
Mania from fire, 314

——— hospitality, 174
——— medical schools, changes at the, 368
——— sewage works, excursion to the, 246
Microscope, Half-hours with the (review), 631
Microscopic Objects, the Preparation and Mounting of (review), 862
Microscopical Journal (review), 844
Microtome, a new freezing, 108
Middlesex Hospital Medical Society, 716
Midwifery licences, 321
Midwives, the education of, 786, 847; for the poor, 926
Military cadets, health of, 838
——— hygiene, 502
Militia surgeons, conference of, 210
Milk, affectable and infectable susceptibility of, 283; and the microscope, 518; question, the, 569; adulterated, 429
Milk-supply and typhoid, 314
Mill, Mr. J., obituary notice of, 65
——, John Stuart, Autobiography of (review), 813
Miller, Dr. W. O., notes of a case of Duchenne's pseudo-hypertrophic muscular paralysis, with special reference to the temperature of the overgrown limbs, and with general remarks, 664
——, Memorial Home, 244
Millington's Selections for Latin Prose (review), 844
Mills, Mr. S., foreign body in the large intestine, 253
Milroy, Dr. G., leprosy, 26
Mimicry, nervous, of organic diseases, 511, 547, 619, 727, 763, 833

## MIRROR OF HOSPITAL PRACTICE, BRITISH AND FOREIGN.

ADDENBROOKE'S HOSPITAL. — Ovariotomy; a drainage-tube passed from the peritoneal cavity through the vagina, 556

BATH ROYAL UNITED HOSPITAL. — Aneurism of posterior tibial artery treated by pressure; recovery, 301 — Diffused aneurism of the right popliteal artery; ligature of the femoral; secondary hæmorrhage; ligature of the external iliac; secondary hæmorrhage; gangrene of the foot and leg; amputation; death, 504

BELFORD HOSPITAL, FORT WILLIAM. — Suspected malignant stricture of the œsophagus; relief under the administration of bromide of potassium and the tincture of the muriate of iron, 45—Case of purpura, 336—Chronic enlargement of leg; aguish symptoms; administration of salicin; relief, 899

BIRMINGHAM GENERAL HOSPITAL. — Ligature of the femoral artery for punctured wounds, 737

BRISTOL GENERAL HOSPITAL. — Cerebral meningitis, with formation of pus beneath the arachnoid, 81 — Prussic acid poisoning; death; autopsy, 622—Abscess of the brain, 877

BURTON-ON-TRENT INFIRMARY. — Excision of the head of the femur, 453

CALCUTTA PRESIDENCY GENERAL HOSPITAL. — A case of empyema treated antiseptically, 809

CHARING-CROSS HOSPITAL. — Myeloid sarcoma of the upper jaw removed, with nearly all the alveoles of the left side, without opening the cavity of the nose into that of the mouth, 81—Clonic torticollis treated by the continuous galvanic current and the rhythmical exercise of the affected muscles, 520—Hereditary exostoses, 771—Case of "lumbago" treated by the application of the continuous galvanic current, and the rhythmical exercise of the affected muscles, 899

DEVON AND EXETER HOSPITAL. — Amputation at the hip-joint; recovery, 772

DUNEDIN HOSPITAL. — Fracture of the coracoid process of the scapula by muscular action, 737

EDINBURGH ROYAL INFIRMARY. — Perimetritis and parametritis, 44 — Spasmodic dysmenorrhœa, 336

EPSOM, CRAYFORD, AND BELVIDERE COTTAGE HOSPITAL. — Compound injuries to joints; recovery, 663

GUY'S HOSPITAL. — Cases of popliteal aneurism, 112—Blow on the head; epileptic fits; trephining; cure, 300 — Disease of the hip-joint; excision, 734 — Remarks on the tuberculous and strumous diatheses, 807—Probable sanguineous effusion between the membranes of the brain, the result of an injury to the head; lead-poisoning; recovery, 876

HIGHGATE INFIRMARY. — Amputation at the shoulder-joint for ununited fracture of the humerus, 521

HÔTEL DIEU.—Extra-uterine and intra-peritoneal pregnancy, with a fœtus of six weeks; hæmorrhagic peritonitis; symptoms simulating internal strangulation complicated with peritoneal phenomena, 230

KILBURN DISPENSARY. — Malignant disease of kidney, 113

KING'S COLLEGE HOSPITAL. — Three cases of ectopia vesicæ; operation; relief, 9 — Strangulated congenital inguinal hernia; operation, with radical cure, 335 — Tumours of the thigh, 809

LEEDS GENERAL INFIRMARY.—Case of colotomy; cure, 736—Cystic enlargement of thyroid body; extirpation; recovery, 841

LIVERPOOL ROYAL INFIRMARY. — Removal of a large fibro-cystic tumour of the lower jaw; recovery, 10

LIVERPOOL WORKHOUSE HOSPITAL. — Acute inflammation of the spleen; abscess; peritonitis; death, 264—Four cases of cholera, 452 — Latent syphilis preventing union of fractured tibia for upwards of seven months; rapid recovery under specific treatment, 627

LONDON HOSPITAL. — Pseudo-hypertrophic paralysis, 44—Two cases of rodent cancer, 263—Remarks on cases of vertigo, reeling, and vomiting, from ear disease, 334—On hemiplegia, with paralysis of the third nerve, ib. — Curvature of the spine; paraplegia; recovery, 414—Remarks on the utterance of the soft explosive consonants in (diphtheritic) paralysis of the palate, 735—Remarks on limited convulsive seizures, and on the after-effects of strong nervous discharges, 840

MALE LOCK HOSPITAL. — Obstinate serpiginous ulceration cured by continuous bath and the internal administration of opium, 300

MANCHESTER ROYAL INFIRMARY.—Colloid cancer of abdomen in a man, simulating ovarian dropsy, 152 — Complete paraplegia from a fall, with recovery, ib. — Treatment of intra-thoracic aneurism by electrolysis, 264

MIDDLESEX HOSPITAL. — Two cases of angular curvature of the spine, 151 — Cases of hernia, 502, 662

MUTTRA CITY HOSPITAL, N.W. PROVINCES, INDIA. —Lithotomy; unusually quick recovery, without suppuration of the wound, 265

PITIÉ (LA) HÔPITAL.—Senile gangrene of the foot cured by the oxygen bath, 153—Tumour of the larynx and pharynx; tracheotomy; recovery, 153 — Removal of naso-pharyngeal tumour by the galvano-caustic wire and knife, ib.

PLYMOUTH NAVAL HOSPITAL. — Aneurism of the posterior tibial artery; compression; ligature; gangrene; amputation; recovery, 809

ROYAL FREE HOSPITAL.—Dislocation of the tendon of the sartorius muscle, 662—Excision of the tongue, leaving the floor of the mouth entire, ib.

ROYAL INFIRMARY FOR CHILDREN, WATERLOO-ROAD.—Subperiosteal excision of the hip; recovery, 772

ROYAL LONDON OPHTHALMIC HOSPITAL.—Diphtheritic conjunctivitis; sloughing of the cornea; recovery, 10

ROYAL SOUTH HANTS INFIRMARY. — Case of pseudo-hypertrophic paralysis (of Duchenne), 113

ROYAL WESTMINSTER OPHTHALMIC HOSPITAL.—Nephritic retinitis, 701

ST. BARTHOLOMEW'S HOSPITAL.—Popliteal aneurism; ligature of the femoral; gangrene three weeks after; separation of four toes; recovery, 43—Large osteo-sarcoma springing from beneath the periosteum of the middle and outer side of the right femur; amputation at the hip-joint; recovery, 229 — Nephritic abscess opened from the back, 772

ST. BARTHOLOMEW'S HOSPITAL, CHATHAM.—Compound comminuted fracture of both legs; fracture of the skull; amputation of the right thigh and left leg; recovery, 264—A series of multiple fractures, 593

ST. GEORGE'S HOSPITAL.—Tumours of both irides; iridectomy, 629

ST. MARY'S HOSPITAL, MANCHESTER. — Twelve cases of ovariotomy, 416

ST. THOMAS'S HOSPITAL.—Acute meningitis in an infant; death, 415—Abscess connected with intestine; pyæmia; operation; death, 555—Diphtheria; tracheotomy; high temperature; death, 771

SEAMEN'S HOSPITAL, GREENWICH. — Compound fractures of left femur and tibia; dislocation of left hand; amputation of injured lower extremity; recovery, 627

STANLEY HOSPITAL, LIVERPOOL.—Extensive disease of the knee-joint; amputation through the thigh; bloodless operation; recovery, 878

STEEVENS'S HOSPITAL, DUBLIN. — Two cases of bayonet wounds, 82

UNIVERSITY COLLEGE HOSPITAL.—Four cases of epitheliums of the tongue; removal by the galvano-écraseur, 80—Abscess between the dura mater and the skull, with persistent fever, 228—Penetrating gunshot wound of the abdomen; injury to the spleen, stomach, and liver; death, 450—Case of lupus treated without caustic, 555—Axillary aneurism; compression; cure, 700
VICTORIA HOSPITAL FOR CHILDREN.—Excision of the knee and head of the femur, 701
WEST LONDON HOSPITAL.—Retention of urine with dribbling, from impassable stricture, successfully treated by leaching and filiform whalebone bougies, 451 — Retention of urine from stricture complicated with a false passage leading to a sac; relief of retention and cure of the stricture, 677
WESTMINSTER HOSPITAL. — Incarcerated hernia; operation; radical cure, 641 — Case of fatty tumour of the forearm removed by the bloodless operation, 849
WHITWORTH HOSPITAL, DUBLIN.—Case of purpura, 337

Mogador as a winter resort for invalids, 588
Moore, Dr. T., vaccination in the provinces, 897
——, Mr. E., obituary notice of, 64
More, Dr. J., the old and the new psychology, 77; on the use of the forceps in midwifery, 560
Morgan, Dr. Frances E., medical women, 897
